## COMBINED COSHH & ENVIRONMENTAL POLICY STATEMENT

### Policy Statement

As a company we take the health and welfare of our employees very seriously, as with our effect on the environment.

As a Rubber Company, under the Environmental Protection act 2006 prescribed processes (part B), our local council considers our process does not need authorisation.

- a) It is company policy not to expose employees to substance hazardous to health and where this is not reasonably practical, that it is adequately controlled and operators trained.
- b) It is also company policy that we do not knowingly use any ozone depleting substances.
- c) It was the company's initial concept that the best method of control of hazardous material to people or environment was elimination, and this still remains company policy.
- d) Where practical, reclaimed material is used e.g. packaging. No industrial effluent is discharged into sewage system and our waste materials are removed for local landfill.
